

April 5, 2010

Dear Affiliate Partner:

To assist you in complying with the reporting requirements for children's television and the requirement that stations air "core" children's programming, we are providing you with episode-specific descriptions (for QUBO Kids on NBC) as set forth in the attached Community Relations Quarterly Children's Programming Report for 1st quarter 2010. The report includes information to help prepare FCC Form 398. Please note that we have not included the specific dates and times for each of the programs as that may be station-specific.

This report is divided into the following categories:

1. Educational Objectives: QUBO for both the 1st quarter 2010 and 2nd quarter 2010.
2. Core programming: Regularly scheduled programming furnished by the NBC Network that is specifically designed to serve the educational and informational needs of children 16 and under. Please note that the age target for QUBO programming on NBC is 4-8 years old. Each of these programs is identified on-air as educational and informational with the "E/I" icon, and is similarly identified to the national listing services. To assist stations with the preemption report section of the new FCC Form 398, we have added specific episode numbers.
3. Other programming: Programming furnished by the NBC Network that contributes to the educational and informational needs of children 16 and under, but is not specifically designed to meet the educational and informational needs of children.
4. Public service announcements targeted to children 16 and under.
5. Non-broadcast efforts that enhance the educational and informational value of NBC Network programming to children.
6. Network on-air promotional efforts, which include a schedule of QUBO programming on NBC on-air promos.

The regularly-scheduled children's programming and promotional content furnished to you by the NBC Network during the 1st quarter of 2010 complied with the commercial limits of the Children's Television Act, and 47 C.F.R. §§ 73.670(a)-(d), provided that you broadcast and distributed such programming as furnished to you by NBC, and did not add any promotional or advertising content there to other than as directed by NBC via weekly postings on APT.

If you have any questions about these reporting requirements, please feel free to call us.

“QUBO ON NBC” EDUCATIONAL OBJECTIVES

For 1st Quarter 2010

EDUCATIONAL OBJECTIVES

1st Quarter 2010 Educational Objectives

In compliance with the Children’s Television regulations that became effective January 2, 1997, the **QUBO Programming Block on NBC** features an on-air icon (E/I) indicating that each program is “educational and informational” for children. This icon is displayed throughout each program. Also, in compliance with the regulations, the following document, which includes “educational and informational” objectives of **QUBO on NBC**, must be placed in your public file.

Each of the programs listed below, which make up the **QUBO on NBC** programming block, is specifically designed to serve the *educational and informational* needs of children ages 4-8. All of the programs have educational objectives that are central to the content and appropriate to the program genre.

From January 2, 2010 - March 27, 2010, **QUBO on NBC** aired six shows returning from the 4th quarter. These are: **The Zula Patrol**, **My Friend Rabbit**, **Shelldon**, **Babar**, **Willa’s Wild Life**, and **Jane and the Dragon**. Additionally, **Turbo Dogs** and **3-2-1-Penguins!** are returning to the schedule, starting the second weekend in January, to replace **The Zula Patrol** and **My Friend Rabbit**.

All eight shows were developed specifically for a target audience composed of children 4-8 years of age. Five of the shows are book-based series. Six of the shows focus on important social-emotional messages for the target audience, and one (**The Zula Patrol**) communicates content from science and astronomy. All educational and informational messages are delivered through an animated narrative format.

Based on the book series by Deborah Manchester, “**The Zula Patrol**” teaches science and astronomy facts to a target audience of children 4-8 years of age. The Zula Patrol is a group of six animated aliens, headed by Captain Bula, who carry out a variety of scientific space missions. During their missions, Captain Bula and his crew often encounter their foe, Dark Truder, and his minion, Traxie, who are trying to take over the universe. Over the course of the story, the audience learns different facts about specific space topics such as stars, planets, orbits, moons, asteroids, comets, gravity, and space probes. The information is then highlighted during a segment where crew member Professor Multo delivers his “Multo-Moments” or summary of scientific facts from the story. Typically, the stories also provide a social-emotional tag based on tolerance and non-violent conflict resolution.

“**My Friend Rabbit**” is an animated show based on the book by Eric Rohmann. The two lead characters, Rabbit and Mouse, work together to tackle challenges that are characteristic of the childhood experience. With each episode, Rabbit and Mouse, along with other friends, face a unique dilemma that compels them to think creatively about how to approach and solve their problem by trying out different solutions and persisting with new ideas when one fails.

“**Shelldon**” is an animated series about a school-aged yoka shell mollusk named Shelldon. He lives with his adoptive family, the Clams, in Shell Land, an undersea community populated by all sorts of sea species. Shelldon and his best friends, Connie (a cowry shell mollusk) and Herman (a hermit crab), face a specific challenge in every episode. The problem may be managing a bully, improving their grades, learning how to be altruistic, or protecting their environment from natural and man-made disasters. In all

cases, they rely on Dr. Shell, the most venerated intellectual and elder in Shell Land who teaches them and gives them opportunities to harness their potential and solve the problem. Each episode provides a direct social-emotional lesson and many episodes provide informational content relating to the sea life habitat of Shell Land and environmental conservation.

Based on the books by Laurent de Brunhoff, “**Babar**” is an animated show about a young orphaned elephant who finds the strength to rise above the challenges he faces, including the death of his parents, as he journeys through life. Each episode of the show develops a social-emotional message such as taking responsibility, being patient and persistent in hard work, respecting people’s privacy, learning to cope with unforeseen changes, and being honest. These messages emerge from the need to resolve a dilemma that is faced by Babar, one of his friends or family members.

“**Willa’s Wild Life**” is a new animated series centered on a six-year-old girl and her menagerie of animals. Willa lives at home with her father and pets – an elephant, a giraffe, a pair of performing seals, a bear, penguins, and lots of rabbits. In each episode, Willa faces a challenge at home, in school or in her neighborhood. With her animals and best friend Dooley as key elements of her team, Willa works on solutions to overcome her challenge. Together they find ways to maintain healthy friendships, experience success, develop competence, and become altruistic. With help from her animal friends, Willa figures out how to earn the things she wants by helping others. She learns to appreciate the friends that she has rather than trying to change to fit in with the “cool” group. She realizes that asking questions is better than jumping to conclusions. Whether at school, home or in the neighborhood, Willa finds a way to analyze her situation and learn from experience.

Set in medieval times, “**Jane and the Dragon**” is an animated show based on Martin Baynton’s best-selling book about a middle-class medieval girl named Jane. Jane is raised in the Royal Court as a Knight-in-Training after she demonstrates her courage by leaving the castle to conquer the local dragon. The giant green Dragon, whose sense of humor exceeds his ferocity, instead becomes Jane’s best friend and a part of the castle community. In each episode, Jane encounters a challenge that tests her problem-solving skills and requires her to demonstrate her strength of character as a Knight of the King’s Guard. Sometimes Jane learns a moral lesson, and other times she uses her analytical ability to illustrate how a problem can be made less complicated and easily solved.

“**Turbo Dogs**” is an animated show based on the books, Racer Dogs, by Bob Kolar. The series follows a group of six dogs from Racerville who love to compete with one another in races. In each story, one or more of the dogs encounter and solve problems that teach them social-emotional lessons on good sportsmanship, teamwork, cooperation, playing fair, and friendship. The show also imparts information on the mechanics of racing such as directionality and concepts of distance and time. The social-emotional messages are embedded through the stories using action and humor. The tags at the end of each episode reiterate and establish the educational message learned by the dogs.

“**3-2-1 Penguins!**” features two children, Jason and Michelle, whose vacation at their grandmother’s cottage ends up being more adventure than they expect when their toy spaceship with four toy Penguins comes to life. The children are sucked into the spaceship, where they meet the now live Penguins and journey through space to solve an inter-galactic disaster threatening the Penguins and their friends. Each story begins with a problem, a moral dilemma for one of the siblings that affects his/her relations with the other, and ends after the children have learned an important social-emotional message through their adventure. The show communicates messages on topics such as honesty, being patient with others, and avoiding jealousy.

2nd Quarter 2010 Educational Objectives

There are no new shows for the 2nd quarter of 2010.

1ST QUARTER 2010 SHOW SUMMARIES

TURBO DOGS is a show about six canine friends—Dash, GT, Clutch, Stinkbert, Strut, and Mags—who have their own distinct characteristics but share a common love of racing cars. The fastest dogs in Racerville, the Turbo Dogs often compete with one another in races. The dogs each have their own racers, which they maintain regularly, and that are equipped with individual GPS systems to help and guide them. Each story begins with one of the Turbo Dogs encountering a problem that must be resolved while preparing to compete. Usually, the Turbo Dog learns his/her lesson through experience and accountability for negative behavior. Social-emotional messages about sportsmanship, teamwork, cooperation, and fairness developed in the story are emphasized in a separate tag at the end of each episode.

3-2-1 PENGUINS! draws upon characters from two stories and uses both long and short form material involving these characters to provide social-emotional messages to children. The show features two children, Jason and Michelle, whose vacation at their grandmother's cottage ends up being more adventure than they expect when their toy spaceship with four toy Penguins comes to life. The children are sucked into the spaceship, where they meet the now live Penguins and journey through space to solve an inter-galactic disaster threatening the Penguins and their friends. Each story begins with a problem and ends after the children have learned an important social-emotional message through their adventure with the Penguins.

THE ZULA PATROL is an animated show about six extraterrestrial characters—Captain Bula, his copilot Zeeter, Professor Multo, their pet, Gorgo, and their flying dictionaries, Wizzy and Wigg—who learn key science concepts as they explore the galaxy through space missions. Often, the group encounters the evil Dark Truder and his talking toupee minion, Traxie, and must thwart Truder's poorly planned schemes to take over the universe. Each character exhibits unique abilities and traits that, combined with their new knowledge, help them problem-solve their way through their journeys. Using an integrated approach to target diverse learning styles, the show communicates its educational messages through narratives and a two-part information segment at the end of each story.

MY FRIEND RABBIT models constructive problem-solving for young children ages 4-8 years. In each episode, the story characters find themselves facing a different dilemma that is drawn from a typical childhood experience. Rabbit and Mouse usually lead us through creative problem-solving, which involves tenacity and working in teams. The group may figure out how to make the most of a bad situation, invent toys from everyday objects, solve some of nature's riddles, respect their differences, or take care of others who need a little extra help. The characters specialize in converting a challenge into a social activity filled with optimism, creativity and humor. The series helps children learn to "think out of the box" by showing viewers how the characters work together to come up with possible solutions and persist with new ideas when one solution fails.

WILLA'S WILD LIFE is a new animated series featuring a six-year-old girl, Willa, who is permitted to share her home with an ever-growing menagerie of animals-- an elephant, a giraffe, a pair of performing seals, a bear, three penguins, and lots of rabbits. These creatures speak to Willa, offering her advice and friendship from each of their respective points of view. In each episode, Willa faces a challenge at home, in school or in her neighborhood. Her animals and best friend Dooley help her develop solutions to overcome each challenge. With the support of Dooley, the animals and praise from her dad, Willa finds ways to maintain healthy friendships, experience success, develop competence, and become altruistic.

BABAR, based on the books by Laurent de Brunhoff, is an animated show about a young orphaned elephant who finds the strength to rise above the challenges he faces, including the death of his parents, as he journeys through life. Each episode of the show develops a social-emotional message such as taking responsibility, being patient and persistent in hard work, respecting people's privacy, learning to cope with unforeseen changes, and being honest. These messages emerge from the need to resolve a

dilemma that is faced by Babar, one of his friends or family members. **BABAR** first appeared on the schedule in 2007 and is returning with new episodes in 2010.

JANE AND THE DRAGON is a coming-of-age story about a middle-class, medieval girl who lives in the Royal Court with her family. As an only child, Jane is raised to be a Lady-in-Waiting but through her determination and a stroke of luck, she ends up being trained as a Knight in the King's Guard. Accompanied by her best friend, a giant green Dragon that lives in her backyard, Jane experiences a series of adventures that test her character and her skills as a young knight in a castle full of friends and foes. Each episode in the show takes us through the problems and challenges Jane encounters and the process she goes through to find the solutions for them.

SHELLDON is an animated series that takes place in Shell Land, a mythical undersea world populated by characters from a wide array of water-dwelling species. The main character, Shelldon, is an orphaned yoka shell mollusk adopted by the Clam family and living with them in the family-owned Charming Clam Inn. Dr. Shell, an elder and venerated inventor, and Connie, a cowry shell classmate of Shelldon's also live at the inn. Shelldon and his buddies, Herman (a Hermit crab) and Connie, always work together and solve problems that they face in school or in the community. A recurring problem is to staunch the plans of the local millionaire, Cecil Cracken, whose greed puts making money over protecting the environment. Dr. Shell is typically the children's key provider of knowledge and other resources. In each episode, the children learn a significant social-emotional lesson and also share information relating to their ocean habitat and environmental protection.

2ND QUARTER 2010 SHOW SUMMARIES

There are no new shows for the 2nd quarter of 2010.

Duration: 30:00

THE ZULA PATROL

CHILLI COOK-OFF [ZUL109]

Bula creates a new dish called the “galactic goo” and uses a thermometer to take the stew's temperature. Multo explains that temperature is measured in degrees, and shown by the lines on a thermometer in either Fahrenheit or Centigrade. Using the Multopedia to fact-check, Multo also tells his friends that when the temperature of something reaches the freezing point—32 degrees Fahrenheit or zero degrees Celsius—it turns to ice. He then measures his goo and takes it off the stove to cool down because it'll freeze if placed in the freezer. After everyone leaves, Bula enters the kitchen and places the goo in the freezer to hasten the cooling process. The goo reaches freezing point, freezes the kitchen, and creates a small tornado. Everyone rushes back to help. Gorga finally uses his snout to suck the tornado in and Bula reverses the temperature to warm it back up.

[Educational Message: Temperature is measured in degrees using a thermometer. The lines of a thermometer indicate the temperature of something, in Fahrenheit or Centigrade. When something gets too cold, it reaches the freezing point, which is at 32 degrees Fahrenheit or zero degrees Celsius.]

TREASURE IN THE CLOUDS [ZUL109]

Seeing the clouds upon waking reminds Multo of the golden cloud he saw above Mt. Zula as a child. Although the golden cloud isn't real, Multo tells his friends about real clouds that are made of water and dust. Checking the Multopedia, Multo explains that clouds are formed when water evaporates into the sky, becomes cold enough to form water drops, and mixes with dust. He shows them the different cloud types: the low-lying cumulus clouds; the gray cumulonimbus clouds and the gray, blanket-like stratus clouds that bring rain; and the high cirrus clouds made of ice crystals. After Multo leaves, Wizzy and Wigg go up the mountain with Gorga to surprise Multo with the golden cloud. Along the way, they encounter the four different clouds that guide the trio and keep Dark Truder away. Upon reaching the top, they see the golden cloud but find that it's only the Zula spaceship behind the cloud.

[Educational Message: Clouds are made of water and dust. They are formed when water evaporates in the sky to become water vapor, turns into water drops when it's cold, and mixes with dust. The four types of clouds are cumulus clouds, cumulonimbus clouds, stratus clouds, and cirrus clouds.]

MY FRIEND RABBIT

THE GREATEST INVENTION [MFR 201]

While thinking about his greatest invention, Rabbit decides to make something multifunctional, necessary and easy to use. He asks his friends for ideas. Thunder can't think of anything and Mouse wants to stay dry. Jasper, however, already has the best invention—his multipurpose fishing stick. Rabbit thinks Jasper's fishing stick is too simple to be the greatest invention, but as he finds different uses for it, he changes his mind. Rabbit uses Jasper's stick to help Amber walk across the mud and as a beat-maker to help Edweena and Hazel sing in synchronization. When a bird flies off with the fishing stick, Rabbit makes a similar one to retrieve Jasper's stick from a tree. Realizing how useful the fishing stick can be, Rabbit admits he doesn't need to invent the greatest thing because it has already been invented. Rabbit returns Jasper's stick to him and gives Thunder the new one.

[Educational Message: Instead of inventing something new, sometimes it's better to find different ways to use the simplest inventions that have already been created.]

TURTLE IN A HURRY [MFR201]

Rabbit and Mouse meet Logan, a young turtle, who gets left behind on his way to the Jolly-Jumbo-Jamboree race with his friends. Rabbit and Mouse hop-think of ways to get Logan to the race on time. Rabbit tries carrying Logan since he's too slow, but Logan can't recognize the way from that height. Then, Hazel lays down her acorns on the path so they can roll down the path quickly. When they reach the bottom, Logan can't find his next landmark. Rabbit and Mouse realize they need to see things from Logan's viewpoint. So, they bend down to locate the next marker. After finding it, they continue until they reach the pond and Thunder makes a wave on which Logan can surf. Logan's finally able to join the race, and Mouse realizes that he and his friends were able to help Logan by seeing the problems through his perspective.

[Educational Message: It's possible to help friends if you see their problem their way.]

CW Educational Programming

Attached is a list of 1st Quarter 2010 CW Children's Educational Programming for your public files.

Statement

This statement is designed to furnish you with additional information concerning the commercial matter contained in the network's children's programs, and to enable you to more easily comply with the requirements of the Children's Television Act of 1990.

The following is a list of all CW Television Network programs which were produced and broadcast with the intention of primarily reaching an audience of children seventeen years old and younger that were scheduled for broadcast during the first quarter of 2010. Each of these programs were formatted to allow for no more than 10.5 minutes of commercial time per hour on weekends and 12 minutes of commercial time per hour on weekdays.

The "E/I" notation represents "core" educational programming on The CW that The CW believes meets the FCC educational programming three (3) hour processing guideline.

CHILDREN'S PROGRAMS
The CW Television Network

1. Program: Winx Club
Rating: TV-Y7 E/I
Length: 30 minutes
2. Program: Chaotic: Secrets of the Lost City
Rating: TV-Y7 FV
Length: 30 minutes
3. Program: Yu-Gi-Oh!
Rating: TV-Y7 FV
Length: 30 minutes
4. Program: Dinosaur King

Rating: TV-Y7 FV
Length: 30 minutes
10. Program: Teenage Mutant Ninja Turtles – Movie Encore
Rating: TV-Y7 FV
Length: 30 minutes (encore aired in 3 parts)

THE CW PLUS

1. Program: Deglassi: The Next Generation (thru 1/17/10)
Rating: TV-PG (E/I 13-16)
Length: 30 minutes
2. Program: Edgemont (effective 1/23/10)
Rating: TV-PG (E/I 13-16)
Length: 30 minutes
3. Program: Gladiators 2000
Rating: TV-PG (E/I 13-17)
Length: 30 minutes

Children's Programming Commercial Limitations:

The following is a list of the amount of commercials allowed into KOMU-TV children's programming. The programs are formatted so that additional commercial time cannot fall into the programs deemed educational and informational. Formats are reviewed on an annual basis.

The NBC/QUBO Kids programs which are designated as educational and informational formatted to allow 1:00 of local advertising time. These programs are:

Turbo Dogs
Sheldon
3-2-1 Penguins
Babar
Willa's Wild Life
Jane & The Dragon

KOMU syndicated programs which are designated as educational and informational allow formatted local advertising time designated below. These programs are:

Wild About Animals	3:30
Jack Hanna's Animal Adventures	5:00

Universal Sports (KOMU-DT 8.2) programs which are designated as educational and informational allow formatted local advertising time designated below. These programs are:

Safari Tracks	2:10
Planet X	2:10

The CW Network and CW Plus (KOMU-DT 8.3) programs which are designated as educational and informational allow formatted local advertising time designated below. These programs are:

Winx	:30
Gladiators 2000	:30
Degrassi: The Next Generation Sat	:30
Degrassi: The Next Generation Sun	1:00
Edgemont Sat	:30
Edgemont Sat	1:00

CERTIFICATION
CHILDREN'S PROGRAMMING

This is to certify that KOMU-TV, as a standard practice, formats all of its children's programming for children 16 and under, or for children 12 and under, including programs provided through the network (NBC, CW & Universal Sports) and syndicated programs acquired by KOMU-TV, so that all such programming fully complies with the statutory limits of commercial content.

Date: 4/7/10

Programs designated for children 16 and under:

Turbo Dogs (NBC)
Sheldon (NBC)
3-2-1 Penguins (NBC)
Babar (NBC)
Willa's Wild Life (NBC)
Jane & The Dragon (NBC)
Wild About Animals (SYN)
Jack Hanna's Animal Adventures (SYN)
Degrassi: The Next Generation (CW)
Gladiators 2000 (CW)
Edgemont (CW)
Safari Tracks (Universal Sports)
Planert X (Universal Sports)

WEB ADDRESS CERTIFICATION

CHILDREN'S PROGRAMMING

This is to certify that KOMU-TV, as a standard practice, does not locally display web site addresses during or adjacent to children's programming for children 16 and under, or for children 12 and under, including programs provided through the network and syndicated programs acquired by KOMU-TV. If website information is provided, it is integrated into the program at the direction of the children's program producer.

Date: 4/7/10
